

Green Areas on This Milford Map Are a GO for All Recreational Marijuana Establishments

Milford Town Meeting on May 22, 2017 passed Article 34, which as amended and approved, allows recreational marijuana establishments (cultivators, testing facilities, product manufacturers, retailers, and other recreational marijuana businesses) to operate within the IB and IC industrial zones (all areas highlighted in green on this map), with the additional restriction that no marijuana establishment shall be located within 200 feet of a residential zone, dwelling unit, school, place of worship, church, park, playground, or youth center.

Businesses and establishments noted in red on the map are placed to show the types of businesses currently operating in (or very close to) the IB and IC zones.
